Re: What is MyEIM???

Evidence in Motion (EIM) is excited to announce the launch of MyEIM, which provides the ability for you to have a unique identity with us. The advantage of MyEIM is that all of your EIM course, products, subscriptions, and other services will be accessible to you via your MyEIM profile. For example, you can access all course-related content, subscriptions, keep track of course dates, download/print certificates, and view product purchase history. MyEIM also utilizes a new and stream-lined PayPal system for online and secure electronic payment. Registration forms, product order forms, and any other form on our website are auto-completed based on your MyEIM profile information, saving you valuable time when doing business with us.

If you have previously attended a course with us, we have already created an account for you. Your username is the email address that you provided on the registration form for the previous course you attended. Unless you have already changed it, your default password is set as your first initial followed by your last name, all lower case with no spaces (ie, firstinitiallastname). [Click here](#) to log in to your existing account and verify that the information in your profile is accurate. If you have not previously attended a course with us, setting up a profile is free and easy. [Click here](#) to create an account. The MyEIM link can be accessed directly within the 'Course Info' menu at www.evidenceinmotion.com. It should take you less than 5 minutes to get started. Profiles can be updated at any time. Your information is completely secure, and we take your privacy very seriously.

We are rapidly expanding our services and product offerings, all of which will be built on the MyEIM platform. Don't miss the opportunity to experience all that we have to offer both now and in the near future. Create or update your existing MyEIM profile today! We may be reached by phone at (888) 709-7096 or by email at MyEIM@evidenceinmotion.com. We are excited about the opportunities to deliver new and effective ways of learning that leverage the best technologies on the market. We sincerely appreciate the opportunity to partner with you to translate evidence into practice!
